14 sec
a successful ransomware attack occurs³

CYBER SECURITY PROTECTION TAILORED FOR ALL PHARMACIES

FRED PROTECT is a 'real time' 24/7/365, layered service designed to protect your pharmacy from cyber security incidents and events, without impacting the running of your business.

REDUCE RISK OF CYBER ATTACK

Network and device monitoring reduces your risk of cyber attack impacting patient data, financial and business trading, and reputation.

INCREASE CYBER AWARENESS

Your security assessment plus ongoing cyber awareness training helps your team to understand the vulnerabilities and reduce the likelihood of an unintentional data breach via human error.

KNOW HOW TO RESPOND

Easy to follow guidance and response action plans will prepare you for real world cyber incidents so you will know exactly what to do in the event of a cyber incident in your pharmacy.

GET PROTECTED WITH A FRED PROTECT PLAN THAT SUITS YOUR PHARMACY

- ✓ Intrusion protection and detection hardware that protects all devices from data breaches, ransomware and hacking attempts
- ✓ Network monitoring software with a 24hr Security Operations Centre (SOC) responding to suspicious activity and cyber incidents
- ✓ A baseline cyber security assessment and recommendations
- ✓ Access to ongoing quick and simple video training and tips for your team
- ✓ Helpful guides including incident response plan, checklists, quick reference guides
- ✓ Monthly reporting on all cyber issues, incidents or events.
